

Workplace Health and Safety Policy

Introduction

This Workplace Health and Safety (WHS) Policy outlines the laboratory's commitment to providing a safe and healthy work environment for its employees, contractors, and visitors.

Purpose

The purpose of this manual is to establish the laboratory's policies and procedures for managing workplace health and safety, and to provide guidance for employees, contractors, and visitors on how to work safely in the laboratory.

Scope

This policy applies to all employees, contractors, and visitors working at the laboratory.

Policy

- The laboratory is committed to providing a safe and healthy work environment and will comply with relevant workplace health and safety laws and regulations.
- The laboratory will conduct regular risk assessments to identify potential hazards and will implement controls to eliminate or minimise the risk of harm to employees, contractors, and visitors.
- The laboratory will provide appropriate training and resources to its employees, contractors, and visitors to ensure they understand their obligations and responsibilities in relation to workplace health and safety.
- The laboratory will ensure that all employees, contractors, and visitors are aware of the WHS policies and procedures outlined in this manual, and that they follow these policies and procedures when working in the laboratory.
- The laboratory will ensure that appropriate first aid and emergency response procedures are in place, and that employees, contractors, and visitors are trained on how to respond in the event of an emergency.
- The laboratory will regularly review its WHS practices and procedures to ensure they remain relevant and effective and will continuously improve its WHS practices based on the results of these reviews.

- The laboratory will encourage its employees, contractors, and visitors to report any workplace health and safety concerns and will take appropriate action to address these concerns in a timely manner.

Conclusion

The laboratory is committed to providing a safe and healthy work environment for its employees, contractors, and visitors. This WHS Manual is an important part of the laboratory's commitment to workplace health and safety and is intended to establish the laboratory's policies and procedures for managing workplace health and safety, and to provide guidance for employees, contractors, and visitors on how to work safely in the laboratory.
